Boys are held back in school twice as often as girls. Boys also get expelled from preschool nearly five times more often than girls, and they are diagnosed with learning disorders and attention problems at nearly four times the rate of girls. Boys are more likely to drop out of school, and make up only 43 percent of college students. Millions of boys are being lost along the path to academic success and career achievement in today’s knowledge economy. Teacher bias regarding behavior, rather than academic performance, penalizes boys as early as kindergarten. On average, boys receive lower behavioral assessment scores, and those scores affect teachers’ overall perceptions of boys’ intelligence and achievement.

Rather than penalize boys’ high energy – as traditional classroom methods often do – successful teachers are learning to take advantage of male liveliness, curiosity and thirst for competition. Unless educators stop to consider whether traditional methods are working for both genders, boys will continue to get the short end of the educational stick. This powerful one-day seminar helps educators understand the structural, chemical and processing differences between boys’ and girls’ brains. It helps educators support boys’ developmental needs, while teaching them social/emotional competencies. Attendees will discover innovative strategies, as well as group and individual interventions, to help boys achieve their highest academic potential. Teachers, counselors, administrators and other educators will leave with practical tools to support boys’ developmental needs and specific activities to get boys learning while reducing their risk for academic failure, dropping out and underachievement.

Learning Objectives
In this seminar you will learn to:
• Explain how boys’ brains work including the chemistry and structure.
• Identify the differences in the ways girls and boys focus.
• Recognize the role of hormones, specifically testosterone and dopamine.
• Demonstrate classroom strategies to support boys’ developmental needs.
• Contrast the difference between natural aggression and bullying.

issues, self-esteem, social skills and much more. The strategies are creative and engaging in a way to create change quickly.

By helping to create the proper learning environment, understanding boys’ natural propensities for competition and aggression, Gurian offers effective and practical guidelines for channeling them. He shows how the evils boys are susceptible to, including gang activity, sexual misconduct, and crime, become necessary outlets when positive role models and adult support are not available.

Helping Young People/Teens Learn About Self-Regulation

$39.95 (includes CD)  Grades K-7

$39.95 (includes CD)  Grades 7-12

Self-regulation includes a universal set of skills necessary for academic success, emotional control and healthy social interaction. With this single resource you will be able to address children’s/teen’s anger problems, academic performance challenges, anxieties, school safety

The Minds of Boys

$18.95

The follow up to Michael Gurian’s blockbuster bestseller The Wonder of Boys. This revolutionary new book confronts what he and a lot of other parents and teachers in this country truly believe to be a “boys’ crisis”. This fascinating and practical book shows parents and teachers how to help boys overcome their current classroom obstacles by helping to create the proper learning environment, understanding how to help boys work with their unique natural gifts, nurturing and expanding every bit of their potential, and enabling them to succeed in life the way they ought to.

The Wonder of Boys

$17.00

Michael Gurian’s blockbuster bestseller The Wonder of Boys is the bible for mothers, fathers, and educators on how to understand and raise boys. It has sold over 400,000 copies, been translated into 17 languages, and sells over 25,000 every year, which is more than any other book on boys in history. This book describes what boys need to become strong, responsible, sensitive men. Instead of encouraging us to stifle boys’ natural propensities for competition and aggression, Gurian offers effective and practical guidelines for channeling them. He shows how the evils boys are susceptible to, including gang activity, sexual misconduct, and crime, become necessary outlets when positive role models and adult support are not available.

Anxiety in the Classroom – How Educators Can Support Students with Anxiety Disorders

DVD Price $295  Also available via AccuTrain On-Demand  Grades K-12

More than 13 percent of students – 1 in 8 – experience significant anxiety that limits their engagement in school and in relationships. Anxiety conditions – separation anxiety, social anxiety, phobias and generalized anxiety – are the most prevalent mental issues, and they often go unnoticed. But the impact on the students is significant. During this webinar, Mike Paget, M.Ed. gives teachers, counselors and other professionals the tools to support and teach this high-potential portion of the student population while avoiding an unmanageable classroom environment. It uses a dramatized interaction to demonstrate how an educator might best handle the difficult, but critical, conversation with a troubled student.

Wired Differently: 5 Keys to Working with Students with Mental Wellness Challenges

DVD Price $250  Also available via AccuTrain On-Demand  Grades K-12

Current studies show that approximately 20 percent of all students are diagnosable for a mental, emotional or behavioral health issue. This brand-new DVD/On-Demand program will help administrators, teachers, paraprofessionals and other staff understand how to support and teach this often high-potential portion of the student population – while avoiding an unmanageable classroom environment. This 20-minute video-based program employs real-life scenarios to introduce educators to 5 keys for working with students who are diagnosable for various disorders including anger disorders, ADHD, bipolar disorder, anxiety disorders, trauma (including PTSD), Asperger’s and mild autism, and oppositional defiant disorder.

Roadmap to Responsibility: The Power of Give ‘em Five™ to Transform Schools

$17.95

Facing disciplinary conflicts and challenging moments with students is hard enough, but not knowing what to do is particularly stressful. Roadmap to Responsibility: The Power of Give ‘em Five™ to Transform Schools represents an unprecedented paradigm shift in the area of school discipline. It provides a step-by-step plan for making a long-term, positive difference in schools that will make educators less stressed and more empowered, while influencing students positively for the rest of their lives.

Teaching the Male Brain

$39.95

Unlock the potential of every boy! No, you’re not imagining it: boys really do learn differently from girls. When you discover how to reach them, you can help them succeed beyond anyone’s expectations – even their own. Updated with the latest research in neuroscience and developmental psychology, this bestselling guide translates theory into tested and refined strategies that are practical and ready to be put to work immediately.
